

Nutri-Duo Nutrient

Nitrogen and thiamine for wine yeast

This enriched nutrient blend supplies wine must with assimilable nitrogen from diammonium phosphate and vitamin B1 (thiamine). It supports yeast growth and complete fermentation. Direct addition to the must is also possible.

Product specifications

Type	Enriched wine yeast nutrient
Application	All wine types
Dosage	10 g per 25–30 L
Nitrogen source	Diammonium phosphate
Fermentation activator	Vitamin B1 (thiamine)
Effect	Supports yeast growth and complete fermentation
Product number	121022

How to use

01 Measure

Measure 10 g per 25–30 L of batch.

02 Prepare

Dissolve the nutrient in a small amount of water or must.

03 Add

Pour into the must and mix the full volume thoroughly.

Direct addition

The sachet contents can be added directly to must and then mixed thoroughly.

Storage and safe use

Store in a cool, dry place. Follow the current instructions, dosage and safety information on the packaging. Keep out of reach of children. Check the best-before date and batch number on the pack.
